NIRVANA SOAKING BATH

NORMAL WATER REQUIREMENT

214 Litres, 47 Imperial Gallons, 56 US Gallons

KEY TO SIZES: ■ Millimetres □ Inches to nearest 1/4"

This bath is supplied with only waste & overflow holes drilled in order to allow options on jobsite in the positioning of spouts, taps, handshowers & whirlpool controls. The bath can be ordered with the overflow positioned in any wall of the well. The only rule is good plumbing.

The bath is strong enough to permit grab bars to be fitted. It requires an extended waste/overflow. The integral steel chassis has four screw-adjustable feet allowing an adjustment between 885mm/35" maximum and 820mm/32 1/2" minimum.

The Nirvana needs to be sunk or provided with a step.

Cabuchon does not supply panels because of the wide range of height and width variations.

All Cabuchon products are registered designs covered by copyright and the Company, being committed to continuous innovation and improvement, reserves the right to change specifications without notice. Tolerances are + or- 3 mm.

These baths, turned on their side, will pass through a minimum standard door aperture of 737mm/29".
